**CONTROL OF THE EXPORT OF CERTAIN  
ARTICLES AND MATERIALS**

BY THE PRESIDENT OF THE UNITED STATES  
OF AMERICA

**A PROCLAMATION**

WHEREAS section 6 of the act of Congress entitled "AN ACT To expedite the strengthening of the national defense", approved July 2, 1940, provides as follows:

Sec. 6. Whenever the President determines that it is necessary in the interest of national defense to prohibit or curtail the exportation of any military equipment or munitions, or component parts thereof, or machinery, tools, or material, or supplies necessary for the manufacture, servicing, or operation thereof, he may by proclamation prohibit or curtail such exportation, except under such rules and regulations as he shall prescribe. Any such proclamation shall describe the articles or materials included in the prohibition or curtailment contained therein. In case of the violation of any provision of any proclamation, or of any rule or regulation, issued hereunder, such violator or violators, upon conviction, shall be punished by a fine of not more than \$10,000, or by imprisonment for not more than two years, or by both such fine and imprisonment. The authority granted in this section shall terminate June 30, 1942, unless the Congress shall otherwise provide.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by the aforesaid act of Congress, do hereby proclaim that upon the recommendation of the Administrator of Export Control I have determined that it is necessary in the interest of the national defense that on and after March 10, 1941, the following-described articles and materials shall not be exported from the United States except when authorized in each case by a license as provided for in Proclamation No. 2413<sup>1</sup> of July 2, 1940, entitled "Administration of section 6 of the Act entitled 'AN ACT To expedite the strengthening of the national defense' approved July 2, 1940":

NEW YORK, N. Y.

Febr. 5th 1939

Mr~Knut Thyberg,  
Vestre Antervik, Sweden.

Dear Knut.-

My cable to you was the result from a very desperate letter from my sister. As it seems they ar in continuous danger without any means and not able to leave Poland. That is why I am trying everything to bring them to some neutral country. I certainly understand my responsibilities in tis case and I know that under present conditions I am able to support them financially.

I am very grateful for your prompt answer and want to thank you for all the trouble you have had. Of course I understand in which position Sweden is at present and how difficult it must be to think of any foreigners. Still if there would be any possibilities of getting my dear Sister to Sweden, I would prefer it to know her being there than in German Poland. I also thought that my brother in law as a mechanical and electrical engineer and his connection with the SKF might be of some use to Sweden.

From Mrs. Dows I often hear about you, Margaret and children, and I sincerely hope that all is well with you and that this terrible war would not affect your country and your family life. Will you please accept my kindest regards and remember me to Margaret and the children, and thinking you once more, I remain as always,

Yours,

PS. I hope you will excuse the typewriter, but I thought it better on account of international censorship.
